Report of the Superintendent of Schools

To the Superintending School Committee and Other Citizens
of the Town of Moscow:

I am pleased to submit the annual report on the conditions in our schools.

No feature of American democracy has been more noticeable than the regard of the American people for public education nor has there been any interest dearer to our people than the welfare of its children. In no other country in the world is there so large a proportion of its young people from the ages of 6 to 18 in school. Our American ideal is to provide equal school opportunity for all. We can point to dismal failures in living up to this ideal but all in all the achievements of the American Public school system are impressive.

There have been no changes in our teaching force during the year. All four teachers are doing their usually excellent work. I often think as you, too, must of how fortunate we are in having these people in charge of our schools.

Repairs during the year have been of a minute nature. Electric lights have been installed at the Washington School, being made possible thru the teachers and children there and the generosity of Mr. Elmer Berry, who contributed a great deal of time. This school has purchased a piano and is paying for it by public entertainments.

Our greatest number of high school students during the year has been twenty-seven. This number will be reduced for the coming year due to the small number in the present eighth grade and to the fact that some have left school.

The school children have been inspected several times by Dr. Ball who has also contributed \$100.00 for dental corrections among some children.

In closing this report, I want to thank everyone who has made this a good school year, children, teachers, school board, parents, and other citizens.

Respectfully submitted,

HOWARD L. BOWEN

Preserve This Report

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on Town Meeting day. This year, or any year, it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you on Town Meeting day morning.
